<https://github.com/jl-bernal>

RESEARCH INTERESTS Cosmology: large-scale structure, line-intensity mapping, dark matter, Hubble constant tension, agnostic modeling and data analysis, neutrino cosmology, primordial non-Gaussianity, blinding methods in cosmology.

PROFESSIONAL CAREER Johns Hopkins University, Davis Postdoctoral Fellowship Oct 2019 – present
Department of Physics and Astronomy

University of Barcelona, FPI fellow PhD Candidate Sept 2015 – Sept 2019
Quantum Physics and Astrophysics Department, Institute of Cosmos Sciences

EDUCATION Ph.D. in Physics, University of Barcelona Sept 2019
PhD Thesis: *Cosmology on the edge of Λ CDM*, (excellent *Summa Cum Laude*)
Advisor: Licia Verde

M.Sc. in Theoretical Physics, Universidad Autónoma de Madrid Jun 2015
Master Thesis: *A consistency test of General Relativity using Expansion History and Growth of Structures*
Advisors: Licia Verde, Antonio J. Cuesta, Alexander Knebe

Bachelor Degree in Physics with honors, Universidad Autónoma de Madrid June 2014

HONORS & AWARDS Second Prize of the XXV Prize ‘Claustre de Doctors’ of the University of Barcelona 2021
Doctoral Extraordinary Prize at the University of Barcelona, class 2018-2019 2021
Spanish Astronomy Society Thesis Prize to the best Doctoral Thesis in A&A 2020
Allan C. and Dorothy H. Davis Postdoctoral Fellowship, JHU 2019
FPI Fellowship for the formation of doctors, Spanish MINECO 2015
Postgraduate Fellowship to study the Master in Theoretical Physics, UAM+CSIC 2014
Extraordinary Prize for the Best Academic Record of Physics 2014 Class, UAM 2014
Excellent Fellowship, Madrid regional Government 2013, 2012, 2011, 2010

TEACHING Teaching Assistant at the University of Barcelona
Astronomy Spring 2017
Ordinary Differential Equations and Vector Calculus Spring 2017, Spring 2018

PEER REVIEW Astrophysics and cosmology journals, including:
ApJ, JCAP, A&A, PDU, EPJC, Universe, IJMPD
External reviewer:
Universidad Computense de Madrid’s program ‘Ayudas para la realización de proyectos I+D para jóvenes doctores’ 2022
External reviewer for NASA’s FINESST program 2020, 2021, 2022

MENTORING	Graduate students: Gabriela Sato-Polito (3 publications), Hector A. Cruz; current graduate students at JHU Katie Short (2 publications); current graduate student at ICC-UB	
PUBLICATION METRICS	30 refereed journal publications (13 first-authored), 1500+ citations, h -index=18 1 article accepted at TAAR and 5 additional articles submitted (3 to PRL, 1 to PRD, and 1 to JCAP).	
OUTREACH	Round table about dark matter for the “Dark Matter Day”	2018
	At what speed does the Universe expands? - Invited talk, Sabadell Astronomy Group	2018
	Unravelling the dark Universe - Exhibition about cosmology, gravity and black holes	2017
	Physics Experiments - UB (demonstrations for High school students)	2016, 2017, 2018
	Walk on the Dark Side - Invited talk for Physics bachelor students	2016
	Physis - UB (demonstrations for High school students)	2016
PROFESSIONAL ACTIVITIES	Member of the SKA Cosmology group and Graviational Waves group	2018 - present
	Member of the Australian SKA Pathfinder (ASKAP) Cosmology group	2018 - present
	Postdoc representative in the “Joint JHU/STScI Colloquium Committee”	2021 - 2022
	Founder and coordinator of “Physics and Astronomy Postdocs and Research Scientists” association at JHU	2020 - 2022
	Organizer of the “Particle theory seminars” at JHU	2020 - 2022
	Founder and organizer of the “PhD & Science” meetings at the ICCUB	2018 - 2019
	LOC member in “Venice Cosmology Workshop 2018: The Island”	2018
VISITING RESEARCH	Department of Physics and Astronomy, JHU (funded by María de Maeztu)	April 2018
	Institute for Astronomy, University of Edinburgh (funded by ICCUB)	October 2017
	Radcliffe Institute of Advanced Study, Harvard (funded by FPI fellowship)	April - June 2016

SEMINARS &
TALKS

- *Seeking dark matter with γ -ray attenuation* - contributed talk at “Vipolze conference”, Slovenia - July 2022
- *The cosmic optical background excess and dark matter* - contributed talk at “Second EuCAPT Annual Symposium”, virtual conference - May 2022.
- *On the importance of temperature perturbations sourced by dark matter-baryon scattering* - contributed talk at “Reionization and Cosmic Dawn: Looking Forward to the Past”, UC Berkeley - March 2022.
- *Exploring the Universe with Line-Intensity Mapping* - invited seminar at Institute of Cosmos Sciences (ICC-UB) - January 2022.
- *Using line-intensity mapping to look for exotic radiative decays* - invited seminar at University of Maryland - September 2021.
- *Searching for exotic radiative decays with line-intensity mapping* - contributed talk at KICP LIM Workshop, Chicago University - July 2021.
- *The trouble with H_0 (and beyond)* - invited seminar at Clemson University - May 2021.
- *Dark matter and neutrino decays with line-intensity mapping* - invited seminar in the Cosmic Physics Center (CPC) at Fermilab - May 2021.
- *The trouble on H_0 (and beyond)* - invited seminar at the Kavli Institute for Cosmological Physics, University of Chicago - April 2021.
- *The trouble on H_0 : reloaded* - invited talk to the “theoretical particle physics seminars” at Stanford University - April 2021.
- *Detecting dark matter decays with line-intensity mapping* - contributed lighting talk to “Latin American Workshop on Observational Cosmology” ICTP SAIIR - December 2020.
- *Cosmology on the Edge of Λ -Cold Dark Matter* - Invited talk at “XIV SEA Scientific Meeting” - Remotely, Spain - July 2020.
- Member of the panel for the discussion session, day 5 - H_0 2020 - Remote meeting - June 2020.
- *The take on cosmology and the Hubble constant tension using Line Intensity Mapping observations* - Invited talk at “Fundamental Theory” seminar at the Institute for Gravitation & Cosmology, Penn State University, USA - February 2020.
- *Exploiting Line-Intensity Mapping for Cosmology* - Invited talk at “2019 GSFC-JHU Interaction Day” - Johns Hopkins University, Baltimore, USA - October 2019.
- *The Cosmic Expansion History from Line-Intensity Mapping* - Contributed talk at “Cosmic Controversies” - Kavli Institute for Cosmological Physics at the University of Chicago, USA - October 2019.
- *The next frontier: clustering at ultra-large scales* - Invited talk at “Concordances and challenges in cosmology after Planck” - Sexten Center for Astrophysics, Italy - February 2019.
- *Synergies and fundamental physics from the large-scale structure* - California Institute of Technology, USA - February 2019.
- *Synergies and fundamental physics from the large-scale structure* - University of California in Santa Cruz, USA - January 2019.
- *Synergies and fundamental physics from the large-scale structure* - Invited talk at Lawrence Berkeley National Laboratory, USA - January 2019.
- *Synergies and fundamental physics from the large-scale structure* - Center for Astrophysics, Harvard University, USA - January 2019.

- *Synergies and fundamental physics from the large-scale structure* - Harvard University, USA - January 2019.
- *Cosmology from the Dark Ages* - Institute of Theoretical Physics (IFT), Spain - October 2018.
- *Cosmology with 21 cm Intensity Mapping from the Dark Ages* - Invited talk at “From Dark Energy to Bright Synergies ” - Sexten Center for Astrophysics, Italy - July 2018.
- *Signatures of primordial black holes as seeds of supermassive black holes* - Contributed talk at “XIII SEA Scientific meeting” - Salamanca, Spain - July 2018.
- *Measuring Galaxy Clustering at Ultra Large Scales* - Invited talk at “Unsolved Problems in Astrophysics and Cosmology” - Eötvös University, Hungary - July 2018.
- *Signatures of primordial black holes as seeds of supermassive black holes* - Contributed talk at “Cosmology2018 Cosmological Applications from First Stars, Reionization and 21-cm Observations” - Institute of Cosmos Sciences (ICC-UB), Spain - June 2018.
- *Using High Redshift Intensity Mapping for Cosmology* - Invited talk at “Venice Cosmology Workshop 2018: The Island” - Venice International University, Italy - June 2018.
- *Signatures of primordial black holes as seeds of supermassive black holes* - Center for Computational Astrophysics, Flatiron Institute, USA - May 2018.
- *Signatures of primordial black holes as seeds of supermassive black holes* - Center for Cosmology and Particle Physics, New York University, USA - April 2018.
- *Cosmological implications of primordial black holes* - Coffee talk. Institute for Astronomy, Royal Observatory of Edinburgh, UK - October 2017.
- *Diving into precision cosmology and the role of cosmic magnification* - Invited talk at “ICCUB Winter Meeting 2017” - Institute of Cosmos Sciences, Spain - February 2017.
- *The trouble with H_0 and the low redshift standard ruler* - Astrophysics group journal club. Imperial College London, UK - November 2016.
- *Parameter splitting in dark energy: is dark energy the same in the background and in the cosmic structures* - Contributed talk at “XII SEA Scientific meeting” - Bilbao, Spain - July 2016.
- *Digging into the tensions of Λ CDM* - Center for Astrophysics, Harvard University, USA - May 2016.
- *Background expansion vs. growth of structure: consistency check* - Columbia University, USA - April 2016.

POSTERS

- *The trouble with H_0* - Cosmology school in the Canary Islands - Fuerteventura, Spain, September 2017.
- *Parameter splitting in dark energy: is dark energy the same in the background and in the cosmic structures* - Meeting on fundamental cosmology - Barcelona, Spain, June 2016.
